

Call for Papers

Munich Workshop on Behavior and Terrorism

December 14th and 15th 2017

LMU Munich

The Munich Workshop on Behavior and Terrorism invites researchers from all disciplines to submit papers that offer insight into topics of behavior related to terrorism. Understanding and modeling the behavior of all involved parties lets us develop better strategies in dealing with the threat of terrorism as a society. This is not limited to military interventions but comprises all related issues such as prevention policies or how to deal with terrorists after conflicts.

Submitted papers can have a descriptive or prescriptive focus, whereas the unit of analysis can range from individual terrorists to entire terrorist organizations or cover the behavior of individuals, governments and societies as a reaction to the threat of terrorism or specific terrorist attacks. Topics can include modeling terrorist-counterterrorist interactions, descriptions of terrorists' behavior, reactions to and consequences of terrorism, risk analysis, terrorism prevention and risk management solutions. We are open to all methodological approaches. Qualitative studies are equally welcome as mathematical modeling approaches or empirical analyses.

The workshop will be hosted by the Munich Risk and Insurance Center at Ludwig-Maximilians-Universität (LMU) in Munich, Germany and organized by Johannes Jaspersen and Andreas Richter. Funding is provided by LMU Munich's Institutional Strategy LMUexcellent within the framework of the German Excellence Initiative. The preliminary schedule has Edward Kaplan (Yale University) giving a keynote lecture.

Submission instructions

Please submit proposals in the form of full papers or extended abstracts electronically to jaspersen@bwl.lmu.de as file attachment in PDF or MS Word format by **July 31st 2017**. Authors of accepted papers will be notified by September 15th 2017 and completed papers will be due by October 31st 2017.

Scientific Committee

Johannes Jaspersen – LMU Munich

Gilberto Montibeller – Loughborough University

Andreas Richter – LMU Munich

George Zanjani – Georgia State University
